CHRIST FOR HUMANITY'S NEWSLETTER

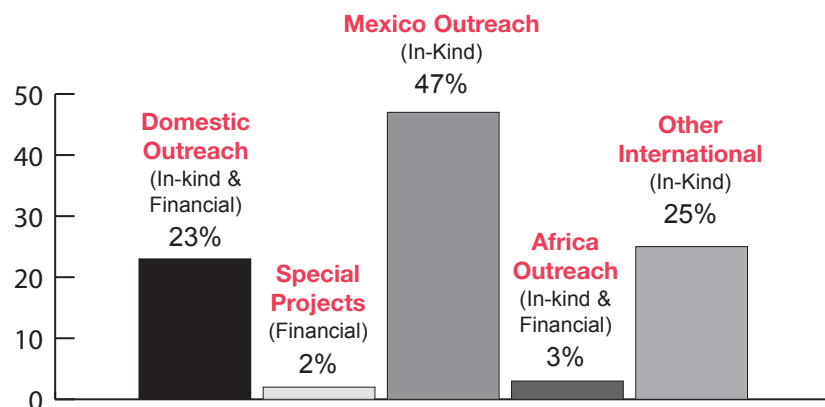

FEBRUARY 2012  
VOL. 20, NO. 1

"AND THIS GOSPEL OF THE KINGDOM WILL BE PREACHED IN THE WHOLE WORLD AS A TESTIMONY TO ALL NATIONS..."

## 2011 – YEAR IN REVIEW

Another year has quickly passed for Christ for Humanity's staff and volunteers, and once again the Lord has been gracious in allowing our small ministry to impact many men, women and children for eternity. In 2011 the estimated value of aid provided by CFH to partnering ministries worldwide exceeded \$3.5 million – primarily in-kind donations received from medical clinics, hospitals, and caring individuals. While Christ for Humanity is selective when choosing mission organizations with which to partner, the ministry does require that all CFH aid be given without regard to race or religious affiliation to the poor at *no cost*.

### Distribution of In-kind Humanitarian Aid and Financial Resources

Thirty-eight international ministries and 45 U.S. ministries, as well as 500+ individuals, received food, clothing, medication/medical supplies, furniture, household items and benevolence gifts from Christ for Humanity last year. More than 10,799 individuals, 1/3rd of whom were under the age of 18, obtained food from CFH sponsored *Adopt-a-Facility* outreaches at 12 low-income housing facilities around Tulsa under the supervision of 10 area churches. CFH is pleased to have added a Hispanic church to the *Adopt-a-Facility* family in 2011, impacting Oklahoma's growing Spanish-speaking community for Christ. *1st Steps*, Monday afternoon's discipleship program, remained a vital evangelistic outreach to Tulsans interested in growing in their faith, and CFH staff members also shared the Gospel at several additional venues around town: Camille Wellnitz, CFH's COO, taught an in-home Bible study for elderly women on Wednesday mornings and a class for female parolees on Thursday evenings; Bob Ashinhurst, Director of Local Outreach, handled

monthly outreaches at the Treetop apartment complex; and office and warehouse managers Jan and Randy Hood provided Sunday afternoon services for the residents of Companions Nursing Home twice a month.

Internationally, Africa Outreach Director Ronda Tyson led two CFH mission trips to West Africa to help in-country missionaries advance the Gospel of Christ – one to Mali in February and the other to Senegal in June. Team members sponsored women's seminars, participated in community health education and evaluations, and enjoyed relational evangelism with villagers in a number of remote communities.

Christ for Humanity also funded a number of special projects with trusted mission agencies in 2011. **Though only 2% of the ministry's total output, *Special Projects* represented 20% of CFH's total financial resources for the year.**

# YEAR IN REVIEW

(continued from page 1)

## SPECIAL PROJECTS:

- CFH purchased a brick making machine for *United World Missions* to be used by missionaries serving in Mali to construct a Christian school and other needed buildings. The machine makes interlocking bricks that, when fitted together much like Legos, create extremely stable structures. The school is currently in the process of being built.
- The ministry raised funds to purchase a collating, cutting and binding machine for an in-country printing operation, serving the underground church in China in conjunction with *BEE*. The new and complete printing press will be able to produce 5X more Christian material than in previous years, growing China's Christians in their knowledge of Christ and His coming kingdom.
- For the second year, CFH provided financial support for 3 native, *United Indian Missions* missionaries, serving indigenous tribes in the State of Jalisco, Mexico.
- Dr. Beau Jennings received funds to purchase medication for an *Athlete in Action* medical outreach in Mongolia. Beau treated hundreds of Mongol people in three locations during his March mission trip. The medical component of the *Athlete's in Action* evangelistic outreach helped impact lives for Christ, as meeting physical needs opened the door for spiritual discussion.
- As in years past, CFH partnered with *World Ministries* in eastern India, funding 3 water wells, latrines in 5

*Interlocking Bricks for School Building Project*

*Medical Care for African Children during CFH's June Mission Trip to Senegal*

villages, and community seed banks in 5 villages. The success of these Community Health Evangelism project hinged upon the education of tribal leaders regarding disease and its prevention. CFH also purchased Biblical teaching materials for WM's Christian leadership training programs.

- Christ for Humanity funded a community development project in the state of Nayarit, Mexico, with *United Indian Missions* – raising goats in Huichol Indians villages in an effort to improve the lives of impoverished, indigenous people.

[See in-depth report on p. 5]

- In response to one of the worst crop failure in recent history, CFH provided funds to purchase corn and beans to help feed starving Tepejuan and Tarahumara Indians throughout the Sierra Madre Mountains of northern Mexico with *New Tribes* and *United Indian Missions*.
- Dave Reiersen of *Hope 2 Others* continued to refurbish non-functioning water wells in The Gambia, West Africa. Dave and his team of Gambian Christians set an additional 19 pumps in 2011, leaving only 6 of the original 35 pumps, CFH purchased in 2010, to be installed in 2012.
- The ministry provided funds to *Wycliffe* missionaries involved in

translating the *New Testament* into a native dialect in Papua, New Guinea. The response to Christ in this particular area in New Guinea has been phenomenal, and tribal leaders anxiously await more books of the Bible in their native tongue.

- Sanjek and Elsa, Kalmyk missionaries CFH has supported for years, received funds to purchase equipment for a *Kids Games* outreach to children in the primarily Buddhist Kalmyk Republic.
- In the U.S., Christ for Humanity partnered with Tulsa-based *Fellowship Bible Church* to help the recovery effort in Joplin, Missouri, after the May 23rd tornado. Christian work crews built permanent structures (*Sheds of Hope*) to protect the salvaged belongings of tornado victims during the rebuilding process.

The Lord has given Christ for Humanity a staff devoted to glorifying God, many dedicated volunteers who enable CFH to fulfill its role within the Christian community, and ample opportunities to serve Him both at home and abroad. Our desire is to be the “hands and feet” of Christ to a hurting world. How grateful CFH is to everyone who partnered with us last year! Our ministry covets your prayers and needs your financial and in-kind support to continue to give “physical help” and “spiritual hope” to the poor in 2012.

## INTERNATIONAL UPDATE

# MEXICO GOAT PROJECT

Early in 2011, Christ for Humanity used grant money from a Florida-based foundation to fund a joint-venture project with *United Indian Missions* in the state of Nayarit on Mexico's west coast. This *community development project*, raising goats for food and trade, could provide long-term economic benefits for struggling Huichol Indians in 12 villages – more than 600 individuals.

The success of any project undertaken with the poor requires education and preparation to accomplish. Many well intentioned Christians have provided good things to ill-educated people in underdeveloped countries, resulting in wasted resources. Long term success requires a vested interest from those being served, making groundwork essential before a project can commence.

UIM's Jaime Coria is spearheading the Mexico Goat Project. During the past year, he visited various Huichol communities in the State of Nayarit, presenting the goat raising venture to village leaders. The most favorable responders were in the community of El Zapote de Picachos, a village only accessible by boat on Lake Agua Milpa. A strong group of Huichol believers lives in this community, so Jaime selected El Zapote as the *initial* development location. This community is motivated to make the project succeed, and project implementation is underway. To date:

- The land has been prepared for conservation of runoff water and the prevention of erosion. Pasture areas have been planted to provide grazing areas for the goats.
- A 10-man Goat Committee has been appointed by the village president to oversee the project and to ensure that the rules and policies established for the goat herding project are followed by the community. This committee will oversee such things as protecting the goats, raising and using goat dogs, repaying the project with raised goats, selecting and purchasing healthy, regional goats, providing

medical care of the goats, and establishing policies for individual responsibility regarding animal care and feeding.

Once all of the committee's policies have been approved at an up-coming community meeting, goats can be purchased. Currently, project funds are being held by *United Indian Missions* until Jaime Coria feels the community is ready. The first goat herd should be purchased in early 2012.

A project undertaken by Christians to include the entire community becomes a wonderful testimony to the love of Christ and is a perfect tool for evangelism. The pilot project in El Zapote will become an example to other Huichol communities of the benefit of such community development projects. Our prayer is that God's hand will move mightily among the Huichol – indigenous people who have shown great interest in establishing a relationship with Christ.

## LOCAL OUTREACH NEWS – TULSA

# THE WISE MEN'S SEARCH

For the second year, Christ for Humanity sponsored a Christmas program at its Tulsa facility to help keep Christ the center of the season. More than 80 people participated in CFH's 2011 *Wise Men's Search*, as costume designers, set builders and performers. Four hundred plus men, women, and children visited the ministry during the four night event, journeying through Jerusalem and Herod's court to the stable in Bethlehem where the Christ child lay. Visitors heard the entire Gospel message and were commissioned by the risen Christ to seek and save the lost.

*"For unto us a child is born, unto us a son is given; and the government shall be upon his shoulder: and his name shall be called Wonderful, Counselor, The mighty God, The everlasting Father, the Prince of Peace."*

Isaiah 9:6

*Herod's Court*

# FOOD FOR THOUGHT

With all of the problems the world is facing (political and social unrest, economic downturns, natural catastrophes, not to mention the myriad of personal problems faced by most individuals), is it any wonder people are confused and alarmed? While the secular world offers such options as "Nostradamus Decoded" to predict mankind's future, only belief in Christ offers "hope" that surpasses all understanding.

## TOP TEN ACCURATE PREDICTIONS FOR 2012

- The Bible will still have all the answers.
- Prayer will still be the most powerful thing on Earth.
- The Holy Spirit will still move.
- God will still honor the praises of His people.
- There will still be God-anointed preaching.
- There will still be singing of praises to God.
- God will still pour out blessings upon His people.
- There will still be room at the Cross.
- Jesus will still love you.
- Jesus will still save the lost when they come to Him.

**Isn't it great to remember "Who" is really in control and that "the Word of the Lord endures forever"?**

**(I Peter 1:25)**

## NEWS OF THE WORLD

### MAJOR BANK FAILURES ROCK THE WORLD

Expect to see a major bank such as Bank of America, JPMorgan Chase, or Wells Fargo go belly-up as its debt burden becomes unbearable. The Fed, of course, will

### PAUL DROPS PARTY

Sources predict that Ron Paul drops the Republican Party and runs as a libertarian, where he ends up splitting the vote among those on the right, and ultimately putting Obama back in the White House for another four years.

### PANDEMIC PREDICTED FOR 2012

The next pandemic will be spread by scientists working for the vaccine manufacturers -- This sounds like a bold prediction, but there is significant evidence pointing in this

direction. For example, Baxter got caught shipping vaccines containing live viruses, and the IOM has now openly admitted that measles vaccines actually cause the measles. Vaccines, it turns out, are the perfect way to infect the population with a pandemic resulting in the fearful masses seeking out more vaccines!
